

Course title and number	Contemporary Economic Issues 465 Section 502
Term	Spring 2025
Time and location	TR: 11:30 AM – 12:45 PM, ALLN 1002
Credit hours	3

Instructor Information

Instructor's information	Jorge Hirs Garzon, email: jorgehirs@tamu.edu LASB 263
Office hours	In-Person: Tuesdays, 1:00 PM to 2:00 PM, LASB 263 Zoom Link: https://tamu.zoom.us/j/93685127313?pwd=18eNJRGGGoaaXGFYOTqLNy9WOo7QATo.1
Teaching Assistants	Aldrich Leow, email: aldrichleow@tamu.edu

Prerequisites

ECON 323 (ECON 410 recommended).

Learning Objectives

This course empowers students to analyze and interpret contemporary economic challenges using practical tools from both microeconomic and macroeconomic frameworks. By engaging with real-world data and policy debates, students will develop skills highly valued in careers such as policy analysis, consulting, and research.

By the end of the course, students will gain a solid understanding of contemporary economic issues and become familiar with different perspectives on these challenges. The course encourages students to develop critical thinking by analyzing major economic policies, participating in class discussions, and completing a collaborative group project.

Textbook and/or Resource Material

Optional (all required readings will be posted at canvas):

Taking Sides: Clashing Views on Economic Issues, 17th edition, McGraw Hill, 2019.
ISBN-13: 978 125 967 2477

The Economics of Macro Issues, 8th edition, Pearson, 2018.
ISBN-13: 978-0-13-453199-1

Chat GPT-4 subscription

Course Description

This course focuses on applying economic principles to real-world challenges, providing students with practical tools to analyze and interpret some of the most pressing issues of our time. Using both microeconomic and macroeconomic frameworks, students will explore critical topics such as

macroeconomic stabilization policies, financial crises, fiscal policy, government budgets, economic growth, socio-economic mobility, minimum wage, health care reform, and the growing impact of artificial intelligence (AI) on the economy.

With an emphasis on real-world applications rather than theoretical or mathematical modeling, this course encourages students to critically evaluate policy debates, interpret data, and develop actionable insights. Additionally, students will have the opportunity to suggest and analyze topics that align with their interests, fostering a personalized and engaging learning experience. Through class discussions, collaborative projects, and hands-on analysis, students will build the skills necessary to address complex economic problems in practical and impactful ways.

Format of classes

The class is delivered in face-to-face format. There will be no ZOOM recordings posted. **It is important that you regularly check your TAMU email and monitor course announcements and calendar.**

Special accommodations

If special accommodations are required student must notify instructor not later than at least 48 hours before exam or other activity that requires accommodations.

Grading Policies

Your final grade in this course will be determined by your performance on:

- Non-cumulative exams (10+10+10=30%)
- Group Project: Presentation 13%, submission of two papers related to the topic of interest 10%, topic 1%, proposal 1%, Slides submission (4%), peer reviews (4+4=8%), surveys (0.5+0.5=1%) (38%)
- Participation (14%)
- Quizzes (10%)
- Perusall (8%)

Grading scale:

A	89.50 and above
B	79.50 to 89.49
C	69.50 to 79.49
D	59.50 to 69.49
F	59.49 and below

Groups: All students will be assigned to groups; we will devote the first two weeks of classes to group creation and choice of research topic.

Quizzes (10%): short quizzes that will be based on assigned reading(s) and will be administered either in class or via Canvas. Each quiz will consist of approximately 5 multiple choice or T/F questions. 3 lowest quiz scores will be dropped.

Exams (30%):

3 non-cumulative exams may include multiple choice questions, T/F questions, 1-2 essay questions.

- **First Exam:** February 13, 2025, held in class.
- **Second Exam:** March 20, 2025, held in class.
- **Third Exam:** April 24, 2025, held in class.

Note: These dates are tentative and can be adjusted in the first week of class depending on the class size.

Group project & Peer reviews (38%):

All students will create groups of 5-6 students and submit a group creation form with a list of students, topic, and least preferable dates for presentation. Each group should have a unique topic, two groups cannot have the same topic. Each group should submit 1-2 page(s) proposals. The Proposal should include: title, 1-2 paragraphs describing the issue and different points of view on this issue, the outline of the presentation, and at least 5 possible sources (it could be not final list).

The use of AI tools, specifically Chat GPT-4, is allowed for the group project. AI can be utilized to gather information for your proposal, generate ideas, and assist in developing different perspectives on the issue. Students should document how they used Chat GPT throughout the project, particularly in the research and proposal stages.

Each group should submit two papers representing opposite points of view on the issue. The papers should be either from peer reviewed journal or an expert's report/analytical paper/testimony that is published at a think tank (see examples of think tanks in the syllabus) or at the website of public or private economic research agency/institution (for example NBER), or at hearings sections of the U.S. House of Representatives committees. It could be a chapter from a textbook, or a part of a longer article.

Each paper should be approximately 5-12 pages long (if shorter/longer - consult instructor before submitting). It CANNOT be from popular press (newspapers, nonacademic journals), nor from online encyclopedias (Wikipedia, Investopedia, etc.). If you are not sure whether the papers satisfy the requirements, please consult the instructor before submitting.

Each student will be assigned a peer review of papers of some other group. Based on the results of peer review the instructor may recommend some groups to change and resubmit papers. Some of these papers will be assigned to non-presenting students to read for the date of presentation.

Each group must submit the slides for presentation. The length requirements are 15-25 slides (not counting reference list). The slides are well balanced with information and visuals, and have easy to read and interpret design. Each student will be assigned peer review of slides. Both peer review assignments (papers and slides) will be administered via Peerceptiv. Slides for presentations should be submitted both to Perceptive assignment In Canvas and to the discussion board in Canvas (it could be submitted as links or uploaded as PDF documents). In case of links make sure to share it with the Texas A&M group.

All groups will present their projects during class time. The presentation should be about current economic issues. Each presentation should be approximately 20-25 minutes long, there will be 2 presentations in each class followed by discussion, not presenting students will ask questions, and presenters will answer. The points for the presentation will be distributed as follows: 10% for the quality of presentation, and 3% for the quality of answers to the questions. Presenting group should be ready to conduct a class discussion on the chosen topic and to provide the overview of the issue and possible solutions. In order to receive credit the group member should participate in the presentation. It is expected that the presentation would cover different points of view on the issue and policies addressing this issue, and use supporting documentation/data. The grade would depend on

- the formal requirements being satisfied (length and duration of presentation, deadlines)
- the coverage of the issue
- argumentation and analysis being backed up by supporting data/articles/research publications/reports/etc.

[List of possible topics](#)

Class participation (14%)

(4%) attendance: students should be present in class, participating in group work and class activities.

(6%) contribution to discussions using cards: Each student will receive 2 contribution cards before each exam (a total of 6 cards). Each time a card is used, the student earns 1% towards their participation grade. Additional contributions beyond the 6 cards can earn extra credit, with 0.25 percentage points awarded per extra card, up to a maximum of 2% bonus points (8 cards).

(4%) group successfully completes class activities: Groups are required to successfully complete in-class activities, which may include short presentations of assigned sections of a paper, answering specific questions, summarizing results of group discussion, doing in class applications of generative AI and sharing the results, submitting the results of group work at Canvas.

Students should come to the class prepared: read the paper and complete assignment related to the reading (could be finding articles/reports/examples related to the topic of reading), be prepared to answer questions based on the assigned readings and to conduct discussion.

Unexcused absences policy: Each student is allowed to miss 3 classes (unexcused) without it affecting the class participation points.

Excused absences policy:

- Contact before or within 48 hours of absence
- Submit request via email: jorgehirs@tamu.edu
- If you need an extension, please contact me within 48 hours at jorgehirs@tamu.edu.

Email Policy

Please include the course number (ECON 465) in the subject of your email. I reserve the right not to answer emails that do not include information about the course and section number.

Check your TAMU email regularly. I send important announcements to the TAMU emails only.

Helpful Websites

Think tanks publish research papers on both domestic and international economic, political, environmental, and social issues. You can find interesting ideas and sources for your papers there.

Tentative Outline of Topics

Module 1. Macroeconomic stabilization policies
Module 2. National debt, tax reform.
Module 3. Health care reform
Module 4. Economic growth and economic mobility.

All topics are subject to change, we may cover less or more than outlined, or include a different topic.
DO NOT USE this outline as study guide for the exam!

Conduct

As a courtesy to me and your fellow students, be on time, do not depart early, and refrain from disruptive behavior (such as talking to each other or reading the newspaper) during lecture. If you have a question during the lecture do not hesitate to ask me. Turn cell phones off.
Academic Resources
The Department of Economics Tutoring Lab will be available for the rest of the semester. The Department Tutoring Lab schedule will be the same as before (https://econ.tamu.edu/tutoring-lab/). Students can sign up using this link: https://join.slack.com/t/tamuecontutoring/signup . Please use your TAMU email to sign up.
Pledge
On all course work, assignments, or examinations at Texas A&M University, the following Honor Pledge shall be reprinted and signed by the student: "On my honor, as an Aggie, I have neither given nor received unauthorized aid on this academic work."

UNIVERSITY POLICIES

Attendance Policy

The university views class attendance and participation as an individual student responsibility. Students are expected to attend class and to complete all assignments.

Please refer to [Student Rule 7](#) in its entirety for information about excused absences, including definitions, and related documentation and timelines.

Makeup Work Policy

Students will be excused from attending class on the day of a graded activity or when attendance contributes to a student's grade, for the reasons stated in Student Rule 7, or other reason deemed appropriate by the instructor.

Please refer to [Student Rule 7](#) in its entirety for information about makeup work, including definitions, and related documentation and timelines.

Absences related to Title IX of the Education Amendments of 1972 may necessitate a period of more than 30 days for make-up work, and the timeframe for make-up work should be agreed upon by the student and instructor" ([Student Rule 7, Section 7.4.1](#)).

"The instructor is under no obligation to provide an opportunity for the student to make up work missed because of an unexcused absence" ([Student Rule 7, Section 7.4.2](#)).

Students who request an excused absence are expected to uphold the Aggie Honor Code and Student Conduct Code. (See [Student Rule 24](#).)

Academic Integrity Statement and Policy

"An Aggie does not lie, cheat or steal, or tolerate those who do."

"Texas A&M University students are responsible for authenticating all work submitted to an instructor. If asked, students must be able to produce proof that the item submitted is indeed the work of that student. Students must keep appropriate records at all times. The inability to authenticate one's work, should the instructor request it, may be sufficient grounds to initiate an academic misconduct case" ([Section 20.1.2.3, Student Rule 20](#)).

You can learn more about the Aggie Honor System Office Rules and Procedures, academic integrity, and your rights and responsibilities at aggiehonor.tamu.edu.

Americans with Disabilities Act (ADA) Policy

Texas A&M University is committed to providing equitable access to learning opportunities for all students. If you experience barriers to your education due to a disability or think you may have a disability, please contact the Disability Resources office on your campus (resources listed below). Disabilities may include, but are not limited to attentional, learning, mental health, sensory, physical, or chronic health conditions. All students are encouraged to discuss their disability related needs with Disability Resources and their instructors as soon as possible.

Disability Resources is located in the Student Services Building or at (979) 845-1637 or visit disability.tamu.edu.

Title IX and Statement on Limits to Confidentiality

Texas A&M University is committed to fostering a learning environment that is safe and productive for all. University policies and federal and state laws prohibit gender-based discrimination and sexual harassment, including sexual assault, sexual exploitation, domestic violence, dating violence, and stalking.

With the exception of some medical and mental health providers, all university employees (including full and part-time faculty, staff, paid graduate assistants, student workers, etc.) are Mandatory Reporters and must report to the Title IX Office if the employee experiences, observes, or becomes aware of an incident that meets the following conditions (see [University Rule 08.01.01.M1](#)):

- The incident is reasonably believed to be discrimination or harassment.
- The incident is alleged to have been committed by or against a person who, at the time of the incident, was (1) a student enrolled at the University or (2) an employee of the University.

Mandatory Reporters must file a report regardless of how the information comes to their attention – including but not limited to face-to-face conversations, a written class assignment or paper, class discussion, email, text, or social media post. Although Mandatory Reporters must file a report, in most instances, a person who is subjected to the alleged conduct will be able to control how the report is handled, including whether or not to pursue a formal investigation. The University's goal is to make sure you are aware of the range of options available to you and to ensure access to the resources you need.

Students wishing to discuss concerns in a confidential setting are encouraged to make an appointment with [Counseling and Psychological Services](#) (CAPS).

Students can learn more about filing a report, accessing supportive resources, and navigating the Title IX investigation and resolution process on the University's [Title IX webpage](#).

Statement on Mental Health and Wellness

Texas A&M University recognizes that mental health and wellness are critical factors that influence a student's academic success and overall wellbeing. Students are encouraged to engage in healthy self-care by utilizing available resources and services on your campus.

Students who need someone to talk to can contact Counseling & Psychological Services (CAPS) or call the TAMU Helpline (979-845-2700) from 4:00 p.m. to 8:00 a.m. weekdays and 24 hours on weekends. 24-hour emergency help is also available through the National Suicide Prevention Hotline (800-273-8255) or at suicidepreventionlifeline.org.
